To whom it may concern,

I worked at STC, Saudi Telecom Company, as their SVP, Consumer Business for 6 years managing 60% of their P&L between 2013 and 2019.

Starting from April 2014, Kasem Saeed worked with me as my personal assistant. Given my 25+ years of corporate life, I have worked with many different assistants and I can say without hesitation, Kasem has been the best assistant I have worked with, given his excellent work ethic, dedication to his role and his company, always positive personality as well as his experience and expertise.

Therefore, I strongly recommend him for a similar position. I would also be very happy to give feedback in detail, if more information is needed.
